

Project Description

- Westwood Alliance Church experienced membership growth and challenges with accommodating the larger congregation with the existing layout.
- Simonson Construction sat down with the church to review renovation and expansion plans that aligned with the church's needs, timeline, and budget
- Scope of work included: nursery room renovation, new narthex, a sanctuary that seats 600, meeting spaces, restrooms, and kitchenette

Self-performed work:

- Architectural design
- Selective demolition
- Sitework and underground utilities
- Concrete foundations
- Pre-engineered building erection, roofing, and siding
- Doors, hardware, finishes, and acoustical ceilings
- Interior partition framing
